

## CSpashshala Syllabus & Implementation plan for grades 1-8

By [CSpashshala](#) | Feb 6, 2019

CSpashshala national curriculum committee comprising computer scientists from top academic institutes as well as IT industry experts have explored various curricula framework and recommendations and have developed a computing curriculum suitable for K-12. The guidelines as well as the curriculum details are presented in the CSpashshala Curriculum document.

Download and use it in your school and classes. For more information you can visit [CSpashshala's website](#).
