

Purinjudha - Free Learning App With Stories

By [Senthil Saivam](#) | May 30, 2019

Understanding and visualizing what you read can go a long way in making reading fun and then reading becomes learning. Purinjudha? is a free android app (no ads) that helps you do just that and enjoy reading.

You can use the app to do the following:

- Interact with sentences to identify their parts, read the sentence with pauses, listen to the sentence being read
- Lookup meanings of words in the context of its use in a sentence, see information and images of things, places and more
- Use it as a handy dictionary to get meanings of word and phrases in simple language, examples, similar words and pronunciations
- Enter, speak or scan the text you want to understand and learn
- Share what you learn with others by sharing words and sentences from within the app
- Read a short story every day to practise your comprehension strategies

The app is available at <https://play.google.com/store/apps/details?id=club.purinjudha> (also accessible from <https://purinjudha.club/>).

Have fun reading! Please write to team@purinjudha.club with your feedback and inputs.
