

## Learning Curve - Issue XV - Social Science in Schools

By [Learning Curve](#) | Aug 27, 2012

This issue of Learning Curve deliberates on the the purpose of **social science** in society, what the National Curriculum Framework says about the subject, the many moral conflicts while teaching it, pedagogic dilemmas, and a look at social science education across the world. The effort has been to give our readers an honest and comprehensive view of the nature of social science as a subject.
